COMPACT HAND TOWEL

The space saving
hand drying solution

COMPACT HAND TOWEL

Easy Maintenance

- Viewing windows allow easy checking of towel level for more efficient servicing.
- Easy to load dispenser can be topped-up for lower maintenance and reduced risk of run outs.
- Durable ABS dispenser cannot corrode and is easy to clean.

Hygiene/Image

- Only the towel used is touched for maximum hygiene.
- Dispenser keeps towel clean and hygienic prior to use.
- A choice of stylish ABS plastic or metal dispensers to enhance your facility.

Cost Control

- Towels dispense one sheet at a time, reducing waste and overuse.
- Sheets dispense fully opened for effective drying and economy.
- Dispenser can be key lockable to deter pilferage and misuse, or snaplock for ease of servicing.

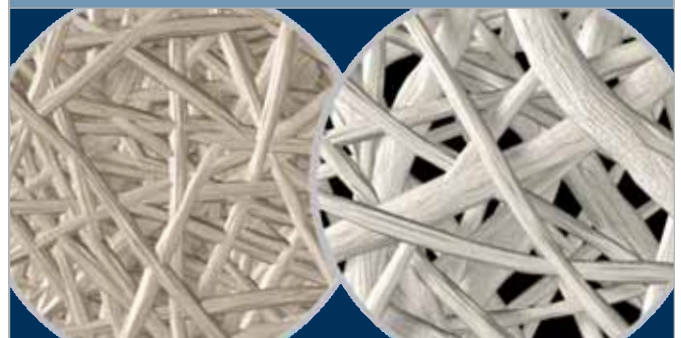

User Satisfaction

- The choice of **KLEENEX®** or **SCOTT®** towels to provide superior hand drying performance and user satisfaction.
- Compact, modern dispensers are ideal for tight spaces and can be placed where they're needed.
- Superior dispenser design provides smooth efficient towel dispensing.

Conventional hand towels have tightly compressed fibres which cause water to sit on top of the towel, slowing absorbency. New **KLEENEX®** and **SCOTT®** towels with **AIRFLEX*** Fabric contain absorbency cells that soak up water fast, for superior hand drying performance.

A HAND TOWEL FOR PROBLEM AREAS

SCOTT* Low Wet Strength Compact Towel is an ideal hand towel for washrooms that are experiencing blocked plumbing due to people accidentally or deliberately flushing paper hand towel down the toilet.

Although NOT designed to be flushed down the toilet, it will break down faster due to its low wet strength (normal hand towel is designed to resist break-up in water).

Note: always encourage the placement of paper towel into a wastepaper bin.
